

House Drafty and Cold? Limited income? High Utility Bills?

Brandon Energy Efficiency Program lowers energy and water bills at no cost to you (for qualifying homes). The program provides basement/attic insulation, electrical gasket installation, drainjer installation and water efficiency upgrades (aerators, shower heads and toilets). Are you eligible?

# of people living in Household	1	2	3	4	5	6	7+
Household Gross Income	\$23,733	\$29,527	\$36,300	\$44,075	\$49,989	\$56,380	\$62,771

**Brandon
Energy
Efficiency
Program**

is dedicated to combining environmental stewardship and poverty reduction. BEEP provides skill training to individuals with limited experience in the formal labour markets primarily to energy retrofit existing buildings to prepare them for jobs in the construction industry. BEEP work includes assuring appropriate insulation levels in basements and attics, and installing water saving fixtures that result in annual energy and water savings to low income earners. For more information on BEEP or to apply for a low income private homeowner retrofit please contact Kristin 729-2491 k.nickel@brandon.ca or George 729-2490 g.mcleod@brandon.ca.
